

SOLAR FIRE DYNAMIC INTERPRETATIONS REPORT

PROGRESSIONS: Progression Interpretations

Astrologers use the term "Progressions" to describe a particular technique of moving planets forward in time. This technique is aptly named because it describes how a person progresses through their life. Progressions describe the different phases in our lives as well as our inner urges and how they affect our lives rather than dramatic outer events. However, our urges can significantly affect the way in which we react to circumstances and therefore our decisions. It is important that we go with the flow rather than fight against the tides of our lives. Therefore Progressions are likely to show us signposts in life's journey and consequently help us gain wisdom and understanding. Some astrologers believe that Progressions are signs from our soul or higher self; others place less emphasis. We suggest that you read on and see for yourself.

Your family members also notice your efforts at home, and you receive the support of those you love.

PROGRESSED MOON ENTERING CAPRICORN (5th House)

Apr 20 2007

Now is the time to consolidate on your aspirations of the past couple of years. In recent years you have been expanding your horizons through academic study, private research or travel. Perhaps you have been challenging the restrictions in your life and feeling restless. Now it is time to settle down, take stock of the positive aspects of your life and consolidate these. Stability and reliability now become the focus of your life. Gradually you become aware of all that you have built in your life and realise that it is time for a review. You slow down, reassess and re-organise your financial and material goals in life. You feel an urge to become more prosperous, or to find ways in which to become wealthy. This is true whether you have always been carefree or very cautious. If you have focussed on spiritual aspirations and left monetary considerations in the lap of the Gods then slowly you will reassess this approach. It is time to take stock of past decisions and forge a new future. It is possible that you reassess and then decide to change very little, however; it is also possible that you start to seek a more stable and conservation path and that this will require some extensive re-organisation. If you have always taken a steady approach then your focus may not change dramatically. You may simply consolidate on past achievements. Skills that have been acquired during the course of your life may now become the basis for a new business enterprise. It is time to reassess your ambitions. Of course you may not have a lot of time for reflection. You are likely to be busy. This phase often requires hard work, planning and building for the future. Development is the name of the game. A new venture may surface or you could consolidate an on-going project. Responsibilities may sit more lightly on your shoulders during this phase because your inner urge is towards work rather than play. You may feel the urge to work towards your own goals rather than socialising. Therefore friends and group activities, which flourished under your previous Sagittarian phase, may temporarily fall by the wayside until the Moon progresses in to Aquarius. You are being called on to focus on your own business.

PROGRESSED MOON SQUARE RADIX NEPTUNE (5th House to 3rd House)

Exact Oct 19 2007

Try not to be too concerned. You simply need to slow down, rest and reflect on some important aspects of your life. As part of this process you may feel the urge to take part in creative, spiritual or artistic pursuits. These can be a valuable means of exploring your feelings. Your dream life may also be more active, as you tune in to your intuitive nature. Dreams may be more vivid, carrying messages for your waking life. Your perceptions and goals are changing in subtle ways. You need to avoid making decisions that require logic. Preferably you should learn to listen to your intuition. If in doubt then take your time before making life-changing decisions. This is a time to gently explore the more subtle realms of life, rather than forge ahead with definitive goals. You are rather like the butterfly that is emerging from the cocoon. Try not to force the process, but rather take your time and enjoy the new emerging you. As a result you will discover new depths and meanings that colour your life in significant ways.

PROGRESSED MOON ENTERING 6TH HOUSE (6th House)

Nov 9 2007

Your co-workers can play a vital role in helping you establish a new regime. You may also benefit from a big spring clean of your office, home, car or any other area of your life that needs attention. If you have been eating unhealthy food or overeating then now is a good moment to change your diet. You could consult a dietician or rely on your own resources. You also need to focus on your daily exercise. Are you getting enough exercise or are you overdoing things? Perhaps you could start a new and enjoyable activity or sports or maybe meditation or yoga would be beneficial? The emphasis is on making sure that your daily routine supports your goals in life. For this reason you may also start reconsidering your current work schedule with a view to changing jobs. You are not necessarily interested in a new career direction, but you may become keen to change jobs or employers. If you work in your own business then you may change your venue to something more suitable to your lifestyle. For instance you may move your office closer to your home, or you may move your business to a more beneficial location. No matter what the focus of your life is during this phase, you need to make sure that you are moving forward in a healthy and balanced lifestyle, one that benefits your life goals. This could take some courage. On the other hand you may feel ready to make significant changes. Perhaps you are tired of opting for comfort and are ready for some excitement. You need to balance your home, family, work and marriage, with your own interests and appetites. The problem is that you are currently going through a somewhat egotistical stage. On the positive side you are eager to achieve your goals and are quite capable of doing so. Gifts, rewards and awards may well come your way. You may also attract warm wishes and gifts from friends, lovers, colleagues and family members. However, if you are not careful you squander your opportunities by taking things or people for granted. As a result you over-commit yourself, neglect loved ones and run out of energy. A time of short-term excess can result in loss of all that is meaningful. Alternatively you may have been working towards a specific goal, putting in the groundwork for a project that now takes off. Either way the success of this period will largely depend on how well you have worked towards your goals in the previous few years. If you have frittered your opportunities or allowed yourself to become despondent or distracted then you may find less opportunities during this period. If you acted responsibly then you are now ready to reap the benefits of your efforts. This is not the time to cry over spilt milk, but rather to move forward. You are being urged forward to new challenges. It is important that you take time to reflect on your choices during this period. It would be easy to be distracted with so much activity.
