The Moon has been long known for its effect on planet Earth. Together with the gravitational pull of the Earth and the Sun it is known to influence the ebb and flow of oceans. The Earth's large moon makes it unique in the inner Solar System. Mercury and Venus have no moons, and Mars has only two small asteroid-sized objects orbiting it. Without the Moon planet Earth would be much darker at night and the wonder of Eclipses would not exist.

The physical attributes of the Moon are known. Astrologers also associate the cycles of the Moon with human affairs, in particular the emotions of individuals. This report delves into the effect of the Moon on your life as it cycles through your Horoscope. Every month, the Moon returns to the exact position it held in your Birth Chart at your time of birth. If you calculate this Return for the location of your current residence then you have what astrologers call a Lunar Return.

This Lunar Return can tell you the ebb and flow of your life in the following month. It is not a major influence but it can add colour and clarity to patterns, circumstances and events. Your physical and emotional reserves are described and this in turn helps you plan how to cope with and plan.

This report is not a comprehensive tomb outlining every details of your Lunar Return chart. Rather it is intended to give you the broad brush influences of the Moon's cycles on your life.

When using these Lunar Return interpretations, please bear in mind that, inevitably, every chart will contain some contradictory influences. As a result certain interpretations

of different items in the same chart may seem difficult to reconcile. However, this may still be an accurate reflection of your Chart, as it is likely that you do experience conflicting desires, events and circumstances in your life. Usually an astrologer will synthesise these apparent contradictions in order to present a cohesive and meaningful interpretation of the anomalies of your Horoscope.

CHART POINTS

THE MOON

THE MOON IN AQUARIUS

The Moon is the most important influence in your Lunar Return Chart because it is the point on which the chart revolves. Your Lunar Return Moon Sign is always the same as the Sign in your Birth Chart. Nevertheless it is important to recognise your own Moon Sign tendencies as the basis of this report. How you react and respond is through your own Moon Sign. With the Moon in the Sign of Aquarius you've an innate distrust of emotions, preferring the safety of intellectual analysis. It's not that you don't want to become close to your loved ones, it's just that they seem to be so emotional about everything. In fact you enjoy social gatherings with loved ones, but you prefer to talk about societal issues and world events rather than touch on an emotionally intimate subject. You're most at home when analysing the world from an intellectual point of view. You're comfortable amongst friends, but find one-to-one intimacy a little threatening. In company you enjoy a good joke, and have a good sense of humour which helps you through the most awkward situations, which seem to crop up quite often in your life. In personal relationships, you need freedom. Your view of the world is often quite different. In fact you can feel quite strongly about some of the things happening in the world, particularly if you feel that events are detrimental to humanity as a whole. You are quirky and curious with a stubborn streak once you have made up your mind about a subject. You also have the ability to comfort yourself and others by seeing things from a different point of view. When you read the rest of this report you need to take note of your basic need for individuality. If you are going through a particularly emotional month then this need is to the fore.

THE MOON IN THE 1ST HOUSE

Your emotions are strong this month. Something or someone is triggering feelings that

rush to the surface and refuse to be pushed away. This can be positive if you are experiencing new and exciting adventures. On the other hand perhaps you have needed to express some strong feelings for some time as a result of an upsetting experience or action. Either way it is time for them to come out, so it is much preferable for you to express your emotions in a strong and powerful manner rather than trying to push them away. There is no need to be aggressive or harmful. Rather you need to communicate your true feelings in a way that is constructive and respectful. Suppressing emotions may cause you unhappiness and certainly does not support your well-being. This lunar cycle can really help you clear out old hurts and move forward in a positive manner. Emotional truths can be liberating. Feelings are not right or wrong. They simply are. Yours need to be expressed. You have no need to try to change the actions or reactions of others, or to get caught up in their emotions. This is your chance to liberate yourself. Once you accept, release and express your feelings then you are likely to feel freer. Centuries ago Italian Statesman Francesco Guicciardini said: "To give vent now and then to his feelings, whether of pleasure or discontent, is a great ease to a man's heart."

10TH DEGREE OF AQUARIUS

Part of Body: Skin of left lower leg

Sabian Symbol: A popularity that proves ephemeral.

ASPECTS OF THE MOON

OPPOSITION MERCURY Orb 0°46' Separating

If you are feeling a little restless, worried or irritable then this is the month to ask yourself why? It is possibly because you are being stubborn and refusing to admit that your personal needs have changed, and you need to adjust your thinking. In other words it is time be honest with yourself, your friends and family about what you want in your private life, and what plans you are making to move forward. Like it or not it is time for you to change your personal habits. It may also be time for you to make amends with a loved one, or perhaps to listen while they seek your forgiveness. If you are feeling frustrated then this is likely to be because you are not listening to or expressing your true feelings. You need to follow your heart, while applying enough logic to keep yourself and your loved ones safe. You deserve all good things that are likely to come your way, once you have closed the door on one lifestyle and welcomed a new life enhancing one. This combination usually indicates a change in your way of thinking, an adjustment to plans and a need to re-think your emotional needs. If you are unsure of your next step then take your time to contemplate your needs. Your moods are likely to be changeable during this month so try to see the big picture. Talking to experts can help you get a better overview. Otherwise wait until your next Lunar Return before making any firm decisions or plans.

TRINE VENUS Orb 2°56' Separating

Romance and good fortunes are highlighted during this month. If you are married you may rekindle feelings of love and togetherness. It's time to create tender moments. If you are single, you may fall in love with someone, either an old flame or someone new. Your powers of attraction are strong right now, so be sure to use your influence well. You and your loved one are quite starry-eyed, so relax and enjoy sharing intimate and loving

occasions. Affection and pleasure are the name of the game. A candlelit dinner, a walk hand-in-hand in nature or just lying on the grass watching the clouds in the sky can be simple pleasures enjoyed with a lover. If there is no one special in your life then you may also benefit from following a passionate past time, particularly one involving the arts, fashion or beauty. Your finances should be well able to support your pleasurable activities during this phase, within reason.

TRINE JUPITER Orb 5°04' Applying

Your personal life blossoms this month. This is because you start to feel positive and realize firsthand that the universe is a big place and you are happy with your place in it. Even if you usually like to settle in one place, this month you are ready to explore new options, even if just in your imagination. You may toy with the idea of moving away from your familiar environs and explore new frontiers, perhaps even travelling to a faraway place. Other moods may prompt you to imagine expanding your own home, either through renovations or moving to a larger house, or a home that is surrounded by wide open spaces. You may feel an urge to study a subject close to your heart, something that compels you. You may have a more philosophical bent this month, forming or changing your personal religious or spiritual beliefs. Your heart and mind are open to new information, which in turn expands your worldview. Faith plays a more prominent role in your private life. The idea is that this month you are keen to have experiences that touch you emotionally, that expand your heart.

THE SUN

THE SUN IN CANCER

The Zodiac Sign of your Sun is not a major influence in your Lunar Return Chart. However it is worth noting its general influence on you and those around you. When the Sun is in the Sign of Cancer you need to nurture yourself. Your vitality comes when you eat well and keep stress to a minimum. This is a good month during which to start health habits. You also benefit from living the moment rather than fretting about the past or worry about the future. Small child and pets may provide happy moments. If you suppress negative emotions then you may suffer from stomach upsets or other ailments. It is better if you find a constructive outlet for expressing all emotions, positive and negative. Activities such as swimming, surfing and other water activity that lets you splash around can be beneficial. This month you are more likely to be attracted to the simple pleasures of life. A comfortable home and sense of peace are most attractive.

THE SUN IN THE 7TH HOUSE

Your Sun is placed in an Angular House in your Lunar Return indicating a month of vitality and high energy. When the Sun is in this powerful position then you are in a month of action. It is time to maintain your healthy physical activities while also pursuing your desires. Your Lunar Return Sun is in the Angular 7th House meaning that the

momentum is with your personal relationships. If you are in a committed relationship then union is your focus. You are keen to spend happy and positive times with your loved one. Anything that stands in your way is likely to be a beacon and you have the drive to deal with these road blocks. One way or another you seek quality one-on-one time. If you have contracts, or business partnerships then this is also true. If you are single then you are likely to be motivated to assess your relationship status. This month you decide if your single status is a happy one or if you would like a partner. You are likely to feel alive and energised in the company of other people, even if you are usually more of a loner. This month sees you interact with verve. Others are also likely to notice your vitality and are eager to support your activities. You can delight in the knowledge that co-operation and care are yours for the asking. This is your month to make the most of any task that requires teamwork.

19TH DEGREE OF CANCER

Part of Body: Ampulla of bile duct

Sabian Symbol: A priest performing a marriage ceremony.

ASPECTS OF THE SUN

CONJUNCTION MARS Orb 4°56' Applying

The Sun is combining with the fiery Mars this month indicating that you are likely to have plenty of physical energy. In fact you are all set for an adventure. You are ready, willing and able to set goals, and then take action to make sure that they are reached. Even if you are not usually a risk-taker this month sees you able to break out of old patterns and act in new ways. You are more enterprising than usual, able to initiate change. You need to be a little wary of being too rash. At times you may feel a little edgy and impatient, however you can use these feelings as signals and prepare for progress. Occasionally conflict can be the catalyst for the changes that you need to make in order to move on. Anger can be a strong motivating force, however; you need to make sure that you act with integrity not aggression. This is time for you to be daring not foolhardy. If you feel pent-up and aggressive, then these are the times when physical exercise or a sport is beneficial. In fact this month you may be attracted to a new and exciting physical activity or game, something that helps you positively utilize your extra energy. Your passion for sports may be a prominent theme of this year, as you enjoy the challenge of directing your energies into the physical and mental challenge. You may also enjoy trips to sports events, theme parks, and out-of-the-way places. Basically this year you are ripe for adventure, so make the most of the opportunities that come your way and enjoy the ride.

SQUARE JUPITER Orb 4°16' Separating

The beneficial planet Jupiter is shining its powerful rays on you indicating that you can enjoy a month of growth and success. Good fortune is with you. At the moment you are able to see your own life in terms of the big picture, as if you were observing a fortunate character in a paperback novel, an epic film or a theatrical production. You are able to be the leading man or lady in your own life story, and to enjoy the journey. You are likely to

feel like a super hero, able to “leap tall buildings in a single bound”. You are optimistic, gladly trying out new activities and ventures. Others notice your natural enthusiasm and willingly lend a helping hand. In fact you may receive rewards from people in high places. This is one of those months when doors open almost as soon as you state your request. It is almost as if you have your own personal genie in a lamp, granting your wishes. This month you are more able to take a positive outlet on life and as a result you are popular, happy-go-lucky, free to explore new options and able to take great strides towards your goals. You need only beware of becoming greedy. A thirst for adventure is one thing, arrogance is quite another. An attitude of gratitude goes a long way to helping you on your journey. If your ego is starting to become over-inflated think of this quote from the famous Walt Whitman, *<ITALICON>“henceforth I ask not good fortune. I myself am good fortune.”<ITALICOFF>* In other words start to spread good fortune for others, rather than seek it for yourself. This is also your year to become a benefactor, teacher or mentor.

TRINE NEPTUNE Orb 4°48' Separating

When the Sun and the planet Neptune combine in your Lunar Return Chart you are being prompted to slow down and smell the roses. Your vitality is likely to be lower than usual. Therefore you need to participate in activities that are restful. Anything that nurtures is beneficial. You may enjoy listening to music, watching a television fiction or documentary series, getting out your paint brushes or sitting quietly in nature. Meditation and prayer can also be useful. If possible you could take a break from your everyday routines. If you cannot take a long break then a few minutes each day could be arranged. If you insist on keeping busy then your immune system may be compromised. Tiredness or illness then forces you to slow down. If you push yourself too hard at the gym or other taxing pursuits then likewise your body may rebel. The time is ripe for water activities such as swimming, surfing, fishing etc. A massage with aromatherapy oils may also be rejuvenating. Use your imagination as inspiration for gentle habits, pastimes, and interactions.

OPPOSITION PLUTO Orb 0°48' Separating

Whenever Pluto melds with the Sun in your Lunar Return Chart it indicates a month of discovery. Your energy levels are likely to be variable depending on how well you can express yourself. If you are in touch with your authentic self then this is likely to be a period during which you can lead, influence and teach others. However if you are not living according to your true self then you may experience problems expressing yourself, particularly when interacting with people in positions of authority. The trick is to be as truthful as possible with yourself. You may need to withdraw from time to time in order to collect your thoughts. Processing thoughts and feelings is part of your story right now. This combination calls for integrity. The noun “integrity” is described in the Oxford English Dictionary as: “The quality of being honest and having strong moral principles.”

OPPOSITION THE ASCENDANT Orb 0°06' Applying

The Sun represents your creative life force. It is your personality, how you express yourself in the world. The Moon represents emotions and has the same nurturing force that you may expect from your mother or major caretaker. The Sun, however; represents

the more rational side of your nature, the reason that you might expect from your father or anyone who is teaching you how to survive in the world. When the Sun is prominent in your Lunar Chart you know that you are able to apply reason to emotion and truly express your gifts. This month your life force is connected with other people. Therefore you are likely to shine when you come together with others. If you are in a committed relationship then you are likely to receive attention and appreciation from your loved one. If you are single then you may catch the attention of someone significant. This is your month to receive rewards and recognition from others, to form partnerships that are favourable and to enjoy yourself in the company of others.

TRINE THE MIDHEAVEN Orb 5°38' Applying

The Sun is influencing the Midheaven angle in your Lunar Return Chart which indicates that you are striving to get ahead this month. You have a sense of purpose which you want to share publicly. You have the drive to move forward with your goals, particularly those relating to your chosen profession. You are likely to make progress this month. This may not be giant leaps forward. Nevertheless you are progressing towards your goals. This is more likely to be through your own efforts to shine rather than with assistance from others. You are clear on what success means to you and ready to move in the right direction.

MERCURY

MERCURY IN LEO

MERCURY IN THE 7TH HOUSE

Lively discussions with other people feature this month. If you are involved in a personal or business partnership then communications are vital. This is your month to communicate your needs, to connect with your partner on a level that boosts your health and well-being. Arguments are likely to be more stressful to you than usual. You are sensitive to the words spoken by others. Written communications are also likely to influence you. You are ready to connect with others in a way that promotes merriment and conviviality. You are likely to reject anyone who upsets you. If you are single then you may meet someone who changes your mind about your single status. Basically this month is one during which your energy is strong when connections with others are positive and supportive, but drained by negativity and disputes. The good news is that you are ready to make any changes that are necessary to promote promising and productive associations. Younger people may also be a source of inspiration. Productive partnerships also can produce happy results, recognition and rewards.

9TH DEGREE OF LEO

Part of Body: Superior vena cava

Sabian Symbol: Glass blowers shape with their breath glowing forms.

ASPECTS OF MERCURY

SEXTILE VENUS Orb 2°09' Separating

This combination is not a significant influence in your Lunar Return Chart but it does indicate that you take pleasure in communicating your needs. You are able to be pleasant, creative, co-operative and perhaps even artistic in the manner in which you connect with others. Pleasant thoughts propel you in the right direction. You can enjoy short trips to pleasurable locations. Connections with women may also boost your spirits. If you are in a creative field then this can be a time during which you easily express your thoughts and feelings through your craft.

VENUS

VENUS IN GEMINI

VENUS IN THE 5TH HOUSE

The planet Venus is all about attraction. What attracts you, what makes you attractive to others and how can you attract what you need? Therefore Venus tells you about your relationship with love, money, pleasure, joy and feeling worthwhile. In a Lunar Return Chart this planet of love tells you what you are likely to attract throughout the month, what gives you pleasure right now. It depicts whether or not personal relationships are likely to be prominent, what kind of personal relationships and whether or not you are likely to be focussed on money and pleasure. When the pleasant planet Venus enters your 5th House then you are in for a fun-filled month. If you fancy a trip to an amusement park then this is your month. In fact it is time to decide exactly what does amuse you and give it a try. You can be as joyful and free as a young child. Children may be attracted into your life right now. This is so that you can learn how to play and be carefree like a child. The emphasis is on fun rather than perfection. If you pick up a paint brush then enjoy the freedom of colours and textures rather than the fine details. If details and perfection are your thing then you may indulge but generally speaking this is a month for breaking free of restrictions and focussing instead on pure pleasure. Passion, love, and creativity are the themes. Your ardour may be directed towards a person or a pastime. The choice is yours.

MARS

MARS IN CANCER

MARS IN THE 7TH HOUSE

As many astrologers rightly proclaim Mars is the planet connected with energy. Energy has a negative and a positive force. When you focus energy positively then through decisive action you can achieve results. However if you are rash then this can result in accidents, conflict and misguided behaviour. Mars is also the planet that is connected with fast vehicles, sporting arenas and sharp instruments. Hence the need to utilise these things carefully rather than recklessly. When Mars charges into the 7th House of your Lunar Return chart your closest unions are fired up. This can be an excellent opportunity to forge ahead with joint projects with a personal or business partner. Together you can achieve success with you in the inspiring leadership role. The trick is to ensure that you are not pushing too hard. Conflagrations can easily break out if you are forcing your own ways on your partner. You may be eager to co-operate but are you listening to your partner? Compromise is required but not easily achieved as you are energised and ready to tackle matters together. Occasionally this influence can indicate a man who enters into a partnership with you, or comes between you and your partner. You need to ensure that positive male energy is expressed this month. Other astrological influences determine how successful or stressful partnerships are for you this month, but you can influence matters in a way that brings about a positive outcome.

24TH DEGREE OF CANCER

Part of Body: Blood vessels of digestive organs

Sabian Symbol: A woman and two men on a bit of sunlit land facing south.

ASPECTS OF MARS

QUINCUNX SATURN Orb 1°08' Separating

The time has come to slow down and be diligent. This combination applies not only to you but also likely to many of the people around you. You are likely to be frustrated and tired if you rush into anything right now. The idea is to think about long-term benefits rather than short-term gratification. Therefore this is the ideal month during which to plant the seeds for lasting projects, businesses or physical activities. Endurances is the key. You may be completing a long-term project. If this is the case then you need to perfect and to polish before receiving the final recognition that is due. If you have cut corners then now is the time to go back and do things properly. If you think in terms of sports then you are training for or running a marathon rather than a sprint. Take your time because timing is everything right now.

SQUARE URANUS Orb 4°27' Applying

The planet Uranus sparks up your energy this month. Imagine you are a car and you are suddenly given a new battery and a work over and you are ready to go. This is how you feel right now. For this reason you are likely to have plenty of get up and go for new ventures. You may be sharp as a tack ready to tackle a new project, join a new group or

make new associations. Short-term rewards abound, however; only time tells whether or not the new pursuits are long-lasting. At the moment you have the impetus to break out of old patterns and try new things. This is the promise of this month. Developments this month can propel you in a fresh and exciting direction. You are likely to learn things by first-hand experience rather than by listening to others. You are self-motivated at the moment. This is a novel time during which you can enjoy yourself tremendously as long as you don't overdo things. This is a month during which you need to avoid rash and unruly behaviour. The trick is to stay within safe limits. Otherwise you may be prone to accidents, clashes with other people and over taxing your energy. You need to learn to juggle all of your new opportunities with aplomb. You can use your intuition to guide you.

OPPOSITION THE ASCENDANT Orb 5°02' Applying

In mythology Mars is considered the God of War, an aspect which is accentuated by its being known as the Red Planet. In astrology the aggressive and warlike aspects of this Planet are often accentuated. It is true that where Mars is prominent aggressive tendencies are not far away. However this Planet is also vital if you are to achieve your goals and objectives. In your case the Planet Mars is closely associated with your 7th House of relationships and so this month your partnerships have extra spark. This can be positive if you are in a committed relationship and the passion ignites. However, you also need to be wary of unnecessary conflict. This is not a month during which you should be uncompromising. If your partner wants to discuss matters that could be heated then you need to create a calm environment conducive to a fair exchange.

JUPITER

JUPITER IN LIBRA

JUPITER IN THE 9TH HOUSE

In traditional astrology Jupiter is the planet of Kings. This planet brings rewards wherever it is placed in a chart. Of course Kings can be benevolent and magnificent, or they can be maleficent. Therefore there is an element of choice in association with Jupiter. In your Lunar Return Chart this planet of largesse depicts where you are likely to attract rewards and recognition. Good fortune can be yours if you act with humility and wisdom. Growth is possible wherever Jupiter reigns. Right now your world is opening up. Are you ready? This is the month to reach for your dreams and make them happen. If you have always wanted to travel to a specific destination, then now you can make plans and fly away. If you have always wanted to publish an edifying or artistic piece of work then this is your month to seek publishers. Perhaps you have always longed to study a particular religious or academic course then this is your month. Your larger than life

presence attracts attention in this expansive month. As a result you are likely to be bestowed with gifts from friends in high places. A project that you have been working on may finally get off the ground or you may be planning a large project such as preparing for public speaking, a conference or a promotional campaign. You may receive sponsorship from a benefactor. You may meet an inspirational lover or teacher to help you on your way. Other people can certainly help you on your journey, but they are they are the signposts. It is up to you to focus on your own aspirations.

The planet Saturn is known as the taskmaster of the Zodiac. Sometimes it is thought to be a hard taskmaster. At other times it is known that this planet's influence is essential in achieving any set task. As such Saturn steadily helps you attract the tools that you need to achieve your objectives. The choice about whether or not you pick up your tools is yours, however; you also then live with the consequences. These can be either opportunities lost or satisfaction guaranteed. This month your social circle is shifting. This could be due to added responsibilities at work, a change of job, maternity/paternity leave, marriage/divorce, or a change in position on a local group committee. However, it is also likely to be as a result of changes in your own heart and mind. Whatever the impetus, this month you are likely to discover your true friends, the ones who last through the other changes in your life. At first you may be too busy dealing with your different schedule, the ramifications of recent events or your new responsibilities. However, eventually you are likely to find time to reflect on the difference in your friendships, social calendar and local network.

In mythology Pluto is the God of the Underworld and this can have some ominous overtones. However, it is also important to note that the underworld contains the riches of minerals and the earth in which seeds thrive and grow. The underworld also contains that which is buried. However, Pluto is the God who raises anything buried and brings it to the surface. Therefore in astrology Pluto rules anything that is suppressed and needs to be recognised. When Pluto is active in your chart his power encourages you to face your greatest fears which need to be destroyed, so that you can pursue the deepest longing in your heart. Pluto urges you to let go and surrender so that you can become a new person. This can be an intense process. The intensity of this month depends on other astrological influences. In most cases this combination indicates a new found intensity in the way that you express yourself and possibly in your primary partnership. You feel an urge to change the patterns of your life. This is the ideal month for such a transformation. Pluto is a powerful Planet and therefore gives you the strength to transform anything that prevents you expressing your own truth. It is important to remember to act with integrity and compassion, both for yourself and for others. You want to feel powerful in your own right, not to have power over others. Whether you realise it or not you are changing. This is likely to have an impact on those around you and they may not be comfortable. As a result feelings may be intense. This can be a profound time during which you reveal many truths about yourself and your primary relationships.
